

President & Founder
Don L. Hammons

Master Electrician, Don L. Hammons founded Correct Electric, Inc. in 1987 with one employee and a vision to build an electrical contracting business with a highly respected reputation and long lasting client relationships. With over 35 years of experience in the electrical industry, Mr. Hammons has served clients in Houston and surrounding areas in a variety of positions and disciplines; from on-site commercial work, to industrial electrical projects, to the management of large scale, multi-million dollar retail centers.

Having completed the IEC Electrical Masters Study in 1990, Mr. Hammons has remained active in industry organizations such as Independent Electrical Contractors, (IEC) and the Houston Electrical League (HEL).

At the helm of Correct Electric, now celebrating its 20th year in business, Don Hammons has gathered a team of highly professional electricians, project managers, estimators, designers, technicians, and administrators that have joined him in growing the company to more than 150 employees with an annual revenue of more than \$16 million. Mr. Hammons and his dedicated staff oversee projects throughout Houston and the surrounding area.
